

User Guide – Oceanus TV: A Visual Exploration of Music’s Tidal Forces

1. Introduction Page

The Homepage greets you with a clean black canvas and a bold welcome. Center stage, the headline invites you to dive straight into the platform’s core features—artist influence maps, dedicated spotlights for solo acts and groups, and a sneak peek at tomorrow’s rising stars. A link to the User Guide sits in the text, ready to walk first-timers through every control.

Across the top, a bright green nav bar lets you hop between Influence Explorer, Oceanus Folk history, focused Artist or Group spotlights, and the Rising Stars tracker. On the right-hand sidebar the “Summary” panel showcases Sailor Shift by default, complete with dropdown to swap in any artist and a compact bio that updates automatically. Together, the centered call-to-action and the live sidebar set the stage: pick a tab, choose an artist, and start exploring the data-driven story of modern music.

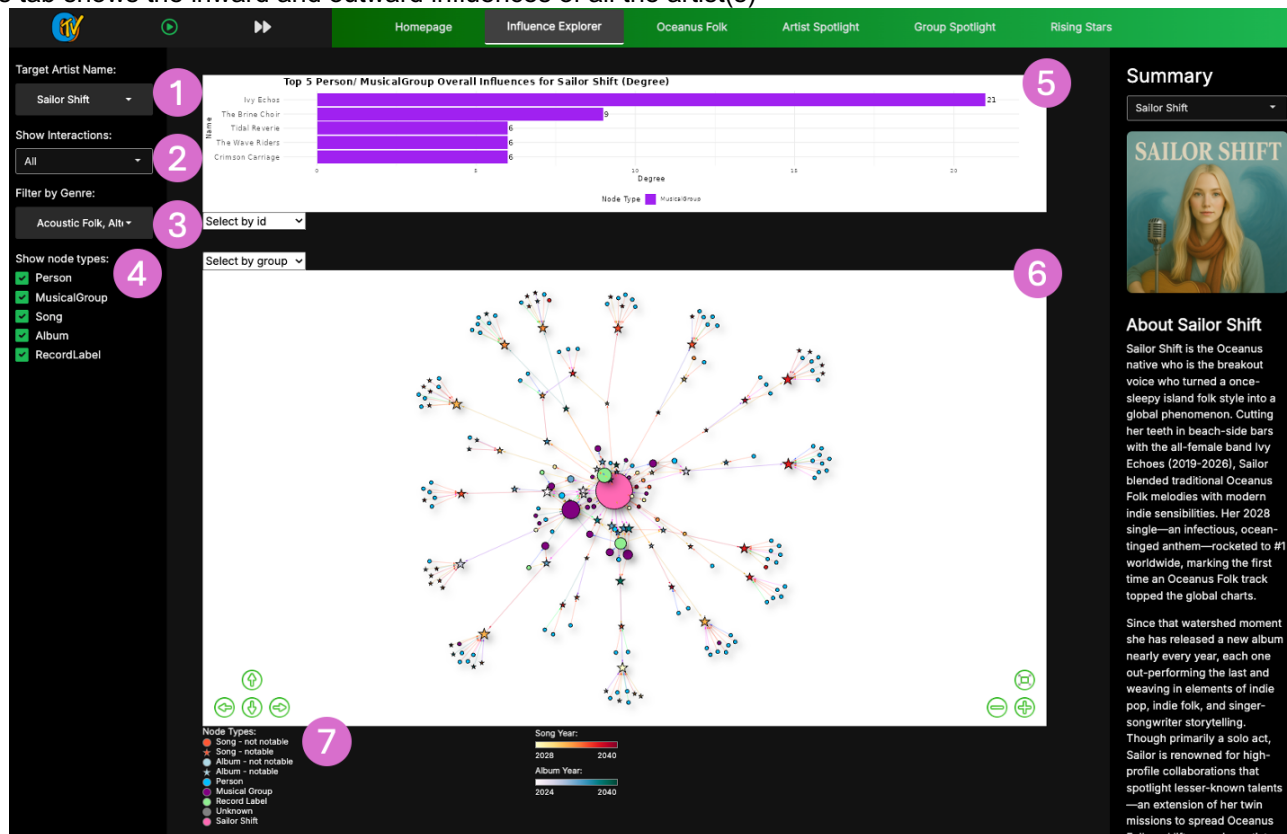

1. **Oceanus TV Logo** – clicking on this brings user to the Netlify page
2. **Play Button** – a play button to where you will be able to play a curated playlist of songs of what the team thinks Oceanus Folk might sound like
3. **Next** – cycle through the songs in the playlist
4. **Top navigation bar** – click on any of the tabs to explore the data visualization
5. **Summary sidebar** – a summary of each tab on the top navigation bar, click on the dropdown to select which summary you would like
6. **Introduction Message** – an introduction message that welcomes you to the page with a hyperlink to the user guide to get you oriented before exploration

2. Navigation Tabs for Data Exploration

1. Influence Explorer

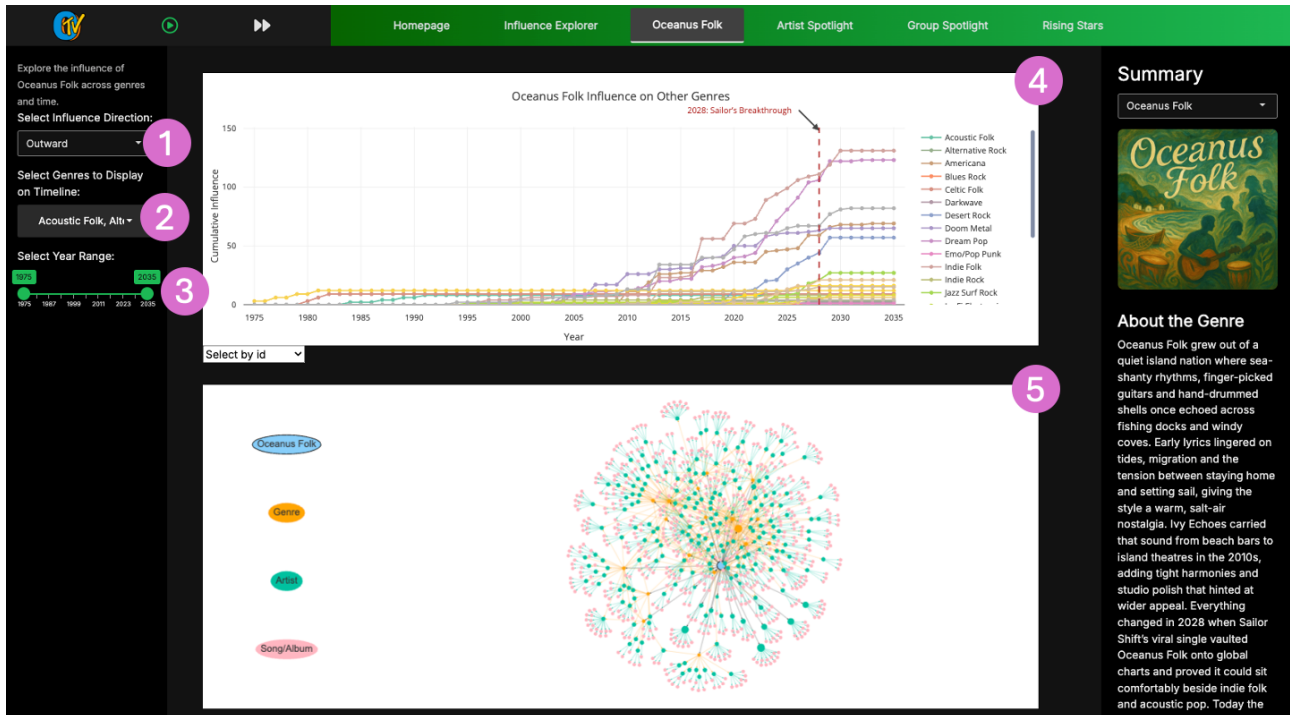

This tab shows the inward and outward influences of all the artist(s)
